

Your Local Marketing Dashboard

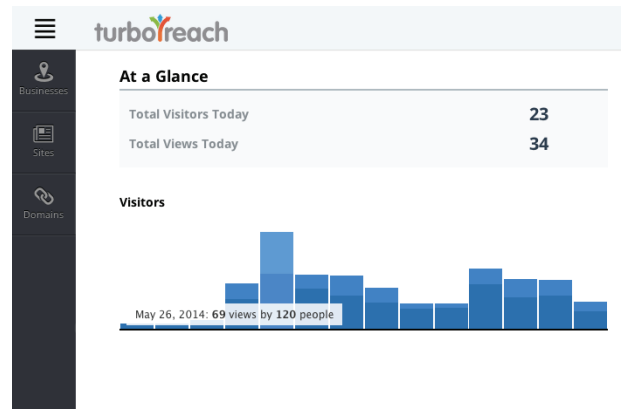

Login Access

After your site has been created, you will be given login access to manage your Business and Site.

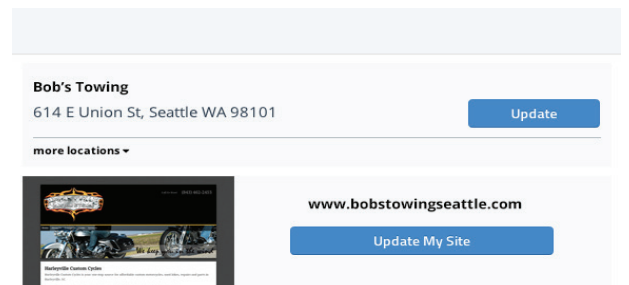

Your Dashboard

After signing into your account, you will have access to up-to-date information on how your Site and Business are performing on the web, including Web Traffic Statistics.

Update Business Details

From the dashboard, you can update your Business information (hours of operation, address, phone numbers). Your site will reflect these changes automatically.

Site Builder

With the easy to use site building tools, you can make changes to the pages, content, and images within your site. Add useful widgets and modules (Image galleries, sliders, forms, and more) to your pages just by clicking.
